EDUCATION

University of Maryland, College Park

Bachelor of Science in Computer Science, Minor in Astronomy

College Park, MD

Expected May 2027

- Relevant Coursework: Algorithms, Compilers, Computer Systems, Data Science, Object-Oriented Programming I & II
- CMSC 498A Independent Study (faculty mentor: Stevens Miller): semester of research and development on Capy's Journey

EXPERIENCE

Co-Founder & CPTO

Capy's Journey – Gamified Mindfulness App for Kids

Jun. 2025 - Present

College Park, MD

- Architected and shipped a cross-platform Unity/C# mobile application for children ages 6–14, backed by a serverless Firebase/Firestore NoSQL data layer.
- Launched on the iOS App Store following a 60+ user closed beta program, with an Android release currently in development.
- Engineered a React Native clinician and educator dashboard for engagement monitoring, instrumented with PostHog for data-driven retention analytics.

UI/UX & Software Developer

Gather – AI Social Platform

Jul. 2025 - Dec. 2025

College Park, MD

- Developed a native iOS social platform in Swift on a Supabase/PostgreSQL backend, leveraging LLM-based matching algorithms to automate group event coordination.
- Established the team's Swift codebase, authentication flow, and data access layer from the ground up as the founding mobile engineer.

Software Engineer Intern

Children's National Hospital

Jan. 2024 - May 2025

Washington, D.C. (Remote)

- Engineered TrachSense, a HIPAA-conscious mobile application for pediatric tracheostomy CO2 monitoring with real-time threshold alerting and caregiver notifications.
- Developed Kapture, a computer-vision web application that automates cervical range-of-motion measurement from video, replacing manual goniometer workflows in clinic.

Software Engineer Intern

UCSD Mobile App Team

Jun. - Sep. 2022

San Diego, CA

- Integrated real-time campus parking data via third-party APIs and resolved production defects in a mobile application serving 40,000+ users.

PROJECTS

Den Anxiety Relief | *React Native, Full-Stack*

Jun. - Aug. 2024

- Built a full-stack mobile application delivering guided meditation, breathing exercises, and interactive fidget tools; selected for the Buildspace Nights & Weekends program.

Rot Recovery | *Next.js, OpenAI API, Supabase*

Mar. 2025

- Built a full-stack productivity tool that generates personalized recovery schedules via LLM-based task decomposition and calendar-aware scheduling logic.

LEADERSHIP & AWARDS

- **Notion Campus Leader (2025 - 2027) & Co-President, Notion @ UMD:** Co-founded and leading a campus productivity community, facilitating events and partnerships with other organizations.
- **Shore Hatchery Pitch Competition Winner:** First place as the youngest of 13 finalists.
- **Mokhtarzada Hatchery, 2025 - 2026 Cohort:** Selected for UMD's competitive startup accelerator under Rocket Money executive mentorship.
- **Bitcamp (Design Director) & Technica (Design Organizer):** Lead end-to-end design for UMD's two flagship hackathons, collaborating cross-functionally across engineering, sponsorship, and operations teams.

TECHNICAL SKILLS

Languages: Python, Java, C#, Swift, JavaScript, C, OCaml, MATLAB, Assembly

Frameworks: React Native, Unity, Next.js, Flutter, Flask

Developer Tools: Git, Docker, Xcode, AWS, GCP, Firebase / Firestore, Supabase, PostgreSQL, REST APIs, PostHog

Design & Other: Figma, Adobe XD, Canva, Procreate; English & Chinese (both fluent)
